

## **How to Register for Group Seating:**

**In order to sit with a friend or a group at a game, one person must sign up as a group leader. Here are a few simple steps to setting up a group for student tickets.**

1. To sign up as a group leader, students simply have to go under the “student information” link and select themselves as a group leader. There will be an option to be a large or small group leader. They will choose the one that fits their group’s size.
2. Once that person's ID is signed up as a leader, anyone who wishes to sit with that person may request a ticket as a member of a group. The option should be directly below the individual ticket request field on the ticket web site. Any person wishing to be a part of that group must type in the ID of the group leader in the group field when requesting the ticket. Most importantly, the group leader themselves must type their own ID in the group field in order to sit with the group.
3. As a member of the group, the group leader’s name will be entered in the lottery process. If the group leader’s name is selected as a winning ticket then the entire group will win tickets.
4. If the group is selected in the first lottery, every member of the group must claim their ticket during the first claim phase. If they do not claim their ticket during that time frame, they will lose their ticket and will not be able to claim it later.
5. If the group is not selected in the first lottery drawing and there is a sufficient quantity of tickets available for a second lottery, the entire group will once again be entered into the lottery. If selected, once again each member of the group must individually claim their ticket during the 2<sup>nd</sup> claim period. However, if there is an insufficient quantity of tickets available to accommodate the entire group, each member of the group will be individually placed in the 2<sup>nd</sup> lottery and the group selection will no longer exist.
6. Finally, if the group is not selected in either of the lotteries, there is a possibility of an “On-Demand” phase in the final days before the game, which individuals may be able to claim a ticket in a first come first serve manner.
